

Linus the Croc! Download Agreement

As with any labor of love, Linus took a lot of time, effort, and investment to create. My goal has been to keep Linus affordable, as I want anyone who feels this program will be beneficial to their child or students to have access to it.

That said, it does require some return to keep going. By continuing with the download purchase, please forgive the need to state the obvious 😊:

I agree to use the download for my own classroom or caseload (as in the case of clinic or school based OTs) use.

I will not copy or reproduce it in any way for another teacher/therapist, etc.

**If you know someone who needs Linus but can't afford it, please have them contact me—I will work with them

***Also, if you are an institution that would like 10 or more copies, please contact me for site-use information
